April 1, 2019

Greetings:

When I interviewed for the position, to be your Superintendent here at Fairfield Areas School District, I wanted to observe/review the district. I have been on board for five months and have observed, reviewed and gained a great perspective into the district. At this time I want to share with you (parents, community and taxpayers) my view on where we are and share with you my vision of where we are heading in the future. I am taking the liberty to call this my "State of the District" address and I am planning on making this an annual event so that all stakeholders will have an opportunity to hear where the district is on an annual basis.

The meetings are being scheduled for three days this April with each day being dedicated to a specific building level. Each building has common concerns and goals that will be expressed in each meeting but each building (school level) has specific concerns for those students and staff. I will share a presentation each night with the common concerns and branch off to the specific areas per building.

All three meetings will be held in the middle/high school auditorium starting at 6:00 pm and should be about an hour long with time set aside for questions and answers. The elementary school presentation will be on Monday, April 15<sup>th</sup>, middle school presentation Tuesday, April 16<sup>th</sup>, and the high school will be on Wednesday, April 17<sup>th</sup>.

I look forward to sharing the presentation with you in order to answer any questions that you may have on what is the state of the District. I am very proud to be able to say that I am the superintendent of the Fairfield Area School District. Together we will continue to make strides in the education that our children participate in for their future.

Thank you and yours sincerely,

Michael P. Adamek  
Superintendent of Schools
