April 3, 2020

Dear Parents/Guardians:

As we finish our first week of education at home, I hope that you and your family are healthy and safe. We often overlook the big picture and are concerned with many other thoughts. The administration and staff want you to know that we think about you on a daily basis and want to see everyone again very soon. We appreciate the effort that you have put into your child's education, especially this week, working with the online instruction or picking up school work.

We understand that this is not the ideal educational experience, but we continue to learn and improve as the schools are closed. We will work hard to make each child's experience the best it can be in our current situation. All schools have experienced some setbacks at the beginning of the week, some of our online tools did not work properly. Schoology was not ready for the amount of increased activity that happened and all of the students signing on overloaded their system. They, too, are overwhelmed but continue to work on improving for all students to have the best experience. If your child is having trouble with the lessons and assignments, please reach out to their teachers (they are online daily to help).

I want to thank you again for patience and understanding as we work together to continue to provide the best educational experience to your child. Next week's schedule will be to continue to work online or through your packets on Monday, Tuesday and Wednesday. We will still observe spring break Thursday, April 9<sup>th</sup> through Monday, April 13<sup>th</sup>.

Please stay healthy and safe,

Mr. Adamek
