Dear School Families,

Wishing you time of relaxation and recovery over these summer months.

I reach out today to let you know that it is our intention to release an update describing our plans for the fall reopening by the end of this week. The update will include changes to our instructional delivery model and our health and safety protocols. The changes reflect survey feedback and the work of our Safety Committee.

Please allow me to share a brief summary of where we are in our intentions:

*Our goal for the fall is to open all our schools and to provide face-to-face instruction. However, we must ultimately start school in the instructional delivery model that allows us the best chance to stay open for as long as possible and to avoid returning to fully remote learning. We commit to a decision at the end of July on our instructional delivery model. We must consider the current and expected levels of viral spread locally while adhering to the social distancing measures that allow us to operate safely and within government recommendations.*

Some of the key components of our instructional delivery model may be as follows:

- *Students K-6 will attend school Monday – Friday grouped in cohorts that allow students to remain separated in classrooms to the greatest extent possible.*
- *Students 7-12 will attend school every other day and complete remote instruction on the days the students are not physically in the building.*
- *Students K-12 will be given the option to enroll in the Fairfield Area School District's Cyber program.*

I appreciate all that you do to support the district during these uncertain times. We are committed to providing the best and safest educational opportunity for our students.

Yours in education,

Michael  
Superintendent

Adamek
