The Board of Directors are aware of communications from the public concerning the current ongoing teacher negotiations. Please understand, negotiations around the CBA are actively taking place and we are all working together to achieve the best possible solution. As with any contract negotiations, negotiating in a public setting is not the best practice and this Board does not feel it necessary to present specific issues in the public without the opportunity for the Association to fully evaluate our proposals. A new counter proposal was offered to the Association on January 1, 2021 and we are planning to meet with the FEA to discuss the proposal next week. We, the Board, serve everyone in the district- teachers, parents, students, and the administration. Our discussions at Board meetings include those items which are not always related to personnel, but must be addressed publicly. The Board seeks to bring all of these issues to resolution, as the Board, Administration and the teachers, continue to provide the best education to our students of our District.
