Dear Parents/Guardians:

We have had a successful start to the school year (as best as we can through the pandemic situation) for the past two weeks. We truly appreciate families working with the district as we continue to improve our instructional methods to educate your child(ren).

We have safely returned our students to the buildings on a hybrid model with Monday as a virtual instruction day. We want to ensure that the students are interacting with their teachers on virtual Monday as they do on the days that they are physically in the building. Through delivering live streaming instruction to students each Monday, teachers will be interacting with students during scheduled classes. Students are required to log on and participate in the live stream as part of their daily attendance.

It is imperative that your child(ren) participate during the live streaming on Mondays for important activities. Attendance documented as the students log into the lessons for each scheduled session of the day. Your child (ren) will have the instructions to access their live stream classes.

Questions concerning a particular scheduled subject/class should be directed to the individual teacher. Questions regarding attendance should be directed to the building office. Thank you for your understanding as we continually monitor and adjust ways to educate our students effectively during this time.

Yours in education,

Mr. Michael Adamek
