January 20, 2021

Dear Students and Families,

In preparation for possible school closings due to weather or a COVID event, the school is setting the groundwork with an explanation of how instruction will be for the students. This is a precautionary measure and this communication is not indicating any closure. It is for your information.

## **FLEXIBLE INSTRUCTION DAYS (FID)**

This day is issued when school is closed for a day or two because of inclement weather, power outage, flooding, etc. Students will follow the A/B schedule and will have instruction similar to what is happening on a Monday.

*For example: It is snowing on a Wednesday, which is B Day. The school building is closed and a FID day is used. B Day students will have on line instruction with the teacher (Following a Monday Zoom schedule) and Day A students will complete assignments on SeeSaw or Schoology as is expected on their day not in school.*

## **COVID CLOSURE**

If the elementary school would be closed because of positive COVID cases, all students will follow the virtual model attached. The school closure can be five or more days. If a closure would happen, a One Call will be sent indicating the timeline. All students will be receiving instruction from the teacher daily (Monday through Friday) and will have assignments via the platform used (Seesaw, Schoology).

This virtual schedule will be posted on the elementary page of the FASD website if you misplace the attached schedule. [www.fairfieldpaschools.org](http://www.fairfieldpaschools.org)

Again, this is a plan in case we would need to close the building. If you have any questions, please contact your child's teacher or myself.

Best Regards,

Barbara A. Richwine
